

Sr. Project Manager

This is a full-time on-site role for a Senior Project Manager - Technical Projects at DeBrine Associates in the San Francisco Bay Area. The Sr. PM leads the execution of complex projects, and guides project strategy, ensures alignment with organizational goals, and provides mentorship to junior team members.

Key Responsibilities

- Manage technical construction projects from early inception through final execution.
- Collaborate with cross-functional teams to address constructability, pricing, and execution challenges.
- Oversee general contractors to facilitate pricing, permitting, and project execution.
- Oversee design teams and design consultants.
- Serve as the primary contact for technical coordination and stakeholder communication throughout the project lifecycle.
- Guide and mentor junior team members.

Qualifications

- Bachelor's or master's degree in architecture, construction, engineering, or a related technical field.
- 10+ years of experience in project management, with a focus on technical and complex projects.
- Proven track record of managing multiple technical projects at the same time.

Required Skills and Experience

- Mastery in project planning, permitting, and technical coordination for complex scopes.
- Expertise in managing client stakeholder relationships and navigating cross-functional dynamics.
- Strong risk management skills, including creating mitigation plans and resolving issues promptly.
- Deep understanding of construction codes, safety protocols, and quality control standards.
- Proficient in project management tools (e.g., MS Project, Smartsheet, Bluebeam).

- Excellent leadership and mentorship skills to guide project teams and develop junior talent.
- Strong strategic thinking, with the ability to align project execution with client goals.
- ***Lab, clean room, or equivalent technical project experience is required and campus experience is preferred.***

Why Join Us?

- Work in cutting-edge facilities and contribute to highly innovative projects.
- Be part of a high-functioning, collaborative and multidisciplinary team.

The salary range for this position is \$190k to \$240k annually, with a generous benefits package. Compensation offered may vary based upon work location, experience, qualifications, specialty training, and market and business considerations, among other factors.

Join us in shaping the future of innovation!
